

Visits and Outings

EYFS: 3.65, 3.66, 1.3, 3.58

We are committed to the importance of daily outdoor play and the physical development of all children regardless of their age and stage of development. We provide outdoor play in all weathers. Where possible and appropriate, we make outdoor activities accessible to children with learning difficulties and disabilities to ensure inclusive use of the outdoor.

We believe that planned outings and visits complement and enhance the learning opportunities inside the nursery environment and extend children's experiences.

We recognise that children need regular access to outdoor play in order to keep fit and healthy, develop their large and fine motor skills, experience learning in a natural environment and access sunlight in order to absorb vitamin D more effectively. We also refer to The Chief Medical Office guidance on physical activity.¹

The outdoor areas in the local community have a wealth of experiences and resources which help children to develop in a variety of ways, including independence, exploration and investigative skills, risk taking and self-esteem, all of which support children to develop skills now and for the future.

We ensure all areas are safe and secure through close supervision and the use of robust risk assessments and safety checks. Where possible and appropriate, we plan and encourage play that helps children understand and manage risks. This type of play allows children to explore and find their own boundaries in a safe environment with supportive practitioners. Staff are informed of the importance of safety procedures and are trained appropriately to ensure these procedures are followed effectively.

We plan all outdoor play opportunities and outings to complement the indoor activities and provide children with purposeful activities that support and follow individual children's interests. There is a balance of both adult-led and child-initiated opportunities to enable children to learn and practice new skills, knowledge and behaviours.

Procedures

Visits and outings are carefully planned using the following guidelines, whatever the length or destination of the visit:

- A pre-visit checklist, full risk assessment and outings plan will always be carried out by a senior member of staff before the outing to assess the risks or hazards which may arise for the children, and identify steps to be taken to remove, minimise and manage those risks and hazards. We will endeavour to visit the venue prior to the visit. This will ensure that the chosen venue is appropriate for the age, stage and development of the children
- We provide appropriate staffing levels for outings dependent on an assessment of the safety and the individual needs of the children.
- At least one member of staff will hold a valid and current paediatric first aid certificate and this will be increased where risk assessment of proposed activity deems it necessary

¹www.gov.uk/government/publications/uk-physical-activity-guidelines

Visits and Outings

- A fully stocked first aid box will always be taken on all outings along with any special medication or equipment required
- A completed trip register together with all parent and staff contact numbers will be taken on all outings
- Regular headcounts will be carried out throughout the outing. Timings of headcounts will be discussed in full with the nursery manager prior to the outing
- All staff will be easily recognisable by other members of the group; they will wear the nursery uniform.
- Children will be easily identified by staff when on a trip they will wear High Viz jackets.
- A fully charged mobile phone and radio will be taken as a means of emergency contact
- In the event of an accident, staff will assess the situation. If required, the group will return to nursery immediately and parents will be contacted to collect their child. In the event of a serious accident an ambulance will be called at the scene, as well as parents being contacted. One member of staff will accompany the child to the hospital, and the rest of the group will return to the nursery.

Risk assessment/outings plan

The full risk assessment and outing plan will be displayed kept. This plan will include details of:

- The name of the designated person in charge - the outing leader
- The name of the place where the visit will take place
- The estimated time of departure and arrival
- The number of children, age range of children, the ratio of staff to children, children's individual needs and the group size
- The equipment needed for the trip, i.e. first aid kit, mobile phone, radio, coats, safety reins, pushchairs, rucksack, packed lunch etc.
- Staff contact numbers
- Method of transportation and travel arrangements (including the route)
- Financial arrangements where applicable
- Emergency procedures
- The name of the designated first aider and the first aid provision
- Links to the child's learning and development needs.

Use of vehicles for outings

- All staff members shall inform parents in advance of any visits or outings involving the transportation of children away from the nursery
- The arrangements for transporting children will always be carefully planned and where necessary additional people will be recruited to ensure the safety of the children. This is particularly important where children with disabilities are concerned
- All vehicles used in transporting children are properly licensed, inspected and maintained
- Regular checks are made to the nursery vehicle e.g. tyres, lights etc. and a logbook of maintenance, repairs and services is maintained
- Drivers of vehicles are adequately insured
- All vehicles used are fitted to the supplier's instructions with sufficient numbers of safety restraints appropriate to the age/weight of the children carried in the vehicle. Any mini buses/coaches are fitted with 3-point seat belts
- When we use a mini bus, we check that the driver is over 21 years of age and holds a Passenger Carrying Vehicle (PCV) driving licence. This entitles the driver to transport up to 16 passengers
- When children are being transported, we maintain ratios.

Visits and Outings

When planning a trip or outing using vehicles, records of vehicles and drivers including licenses, MOT certificates and business use insurance are checked. If a vehicle is used for outings the following procedures will be followed:

- Ensure seat belts, child seats and booster seats are used
- Ensure the maximum seating is not exceeded
- All children will be accompanied by a registered member of staff
- No child will be left in a vehicle unattended
- Extra care will be taken when getting into or out of a vehicle
- The vehicle will be equipped with a fire extinguisher and emergency kit containing warning triangle, torch, blankets, wheel changing equipment etc.

Lost children

In the event of a child being lost, the Lost Child Procedure will be followed. Any incidents or accidents will be recorded in writing and Ofsted will be contacted and informed of any incidents.

There may be opportunities for parents to assist on outings. The manager will speak to parents prior to the visit regarding health and safety and code of conduct.

In the event of an emergency (including a terrorist attack)

In the event of an emergency whilst out on a visit, we encourage staff to find a safe haven and remain there until the danger passes. Each outing will have a detailed risk assessment, which covers all these risks and is planned ahead.

Other issues such as extreme weather, emergency (such as an ill or injured child) etc. are covered along with how we contact parents to let them know everything is ok.
